

**Bouschor, just doesn't get it.**

His eighteen year regime ended in disgrace!

He conspired to cripple the tribe's ability to operate by having seven, key, administrative personnel quit their post and then pay them 2.6 million dollars, as a reward.

His legacy, as the front man, has diminished with each wrong doing, revealed.

Bouschor has to realize that the power of the internet, and its use by concerned citizens, is what brought him down. Now, he is trying to recover, his status, by utilizing that same media to influence the popular vote.

This vile, hate monger of a rag called Sault Tribe Times spews evidence of the flawed character that lost the hearts and dreams of the Sault Tribe membership.

It targets those citizens that opposed him and his political ambitions. It can only serve as a reminder, to the citizens, as to why he is no longer in power.

You can just add this to the long list of another "**wrong doing revealed**". So, we can celebrate, with every issue, because it does a thorough job of exposing the mentality of Bouschor.

Challenge his support system.  
Fred Paquin, Lana Causley, Cathy Abramson and Joe McCoy don't deserve your vote.
