Tribal Members,

The figures that follow are family, friends and lovers of Tribal Chairman Bernard Bouschor that are employed by the tribe and hired by Bernard. Many of these people have contracts given them by Bernard. These figures reflect millions of dollars spent on favors for Bernard's family. Bernard hires these family members with high salaries knowing full well our elders are only getting \$1,100 annually and has no qualms about it. To add insult to injury he raised the elder age requirement from 50 to 60. If there is anyone who feels what Bernard is doing is in the best interest of the tribe, I would like to know your reasoning?

Several weeks ago I challenged Bernard to an open debate to discuss these and other issues and he has refused. Director Paquin says it's none of our business who he hires in his department. Paquin created two positions in the tribal police department for his daughter and son-in-law. His wife is the general manager for the Kewadin Inn Enterprises. His sisters boy friend is a maintenance supervisor at the Kewadin Shores Casino where Paquin's son works. The list goes on and on!

Has anyone noticed how John Hatch suddenly quit answering questions asked by the membership when I asked him to list certain information Bernard says I am spreading falsely. There is documentation for every item myself or Tommer has put in e-mails to the membership. Your unit Director is allowing this to happen. The incumbents running for re-elections in the next election are the ones needed to stop the raping of our tribal finances. There are at least four BOD members who will stand up and make a motion to stop this nonsense, the others that follow are the ones we need to vote for in our upcoming election.
